The diagram illustrates a multi-ported bus system. On the left, two masters are shown, each with a vertical stack of three components: a top box labeled **BYE**, a middle box labeled K1 or K2, and a bottom box labeled **BYE**. On the right, a single slave is represented by a vertical stack of three boxes: a top box labeled **BYE**, a middle box labeled K3, and a bottom box labeled **BYE**. A horizontal line representing the bus connects the masters to the slave. The top master's **BYE** box is connected to the top **BYE** box of the slave. The middle boxes (K1, K2, and K3) are connected to a common vertical bus line. The bottom master's **BYE** box is connected to the bottom **BYE** box of the slave.
